eventUBE® COLLECTION

THE DIFFERENCE

- Superior craftsmanship, efficiency with a modern, sleek design
- Lowest profile in the industry
- Both gas and air modulated at both inputs – saving energy and increasing performance
- Enclosed flame completely protected from wind, creating the highest wind resistance
- Dual input from 23,000 BTU/hr to 100,000 BTU/hr
- Effective for ceiling heights 9' to 16'
- Both indoor and outdoor applications available
- Available in 316 marine grade stainless providing the best quality in the industry
- Every heater is factory tested and inspected prior to shipping
- More intense and even heat footprints ranging from 192ft² to 672ft² (see illustration below)

THE SLEEKEST INFRARED TUBE HEATER IN THE INDUSTRY

MODULATING TWO STAGE HIGH EFFICIENT GAS-FIRED INFRARED HEATER

A modern heating solution built to perform safely and dependably in indoor and outdoor applications.

- Modulating two stage tube heater
- Rates from 40,000 to 100,000 BTU/hr
- Wind resistant up to 12 mph
- Self-diagnostic ignition module
- Effective for ceiling heights 9' to 16'
- Clearance to combustibles as low as 4"
- Up to 50% electrical energy savings with powerful PSC motor
- Approved for indoor and outdoor applications - vented or unvented
- Easy to install, maintenance free heat solution
- Compatible with smart wireless technology
